

## PARC Engineering

PARC Engineering provides engineering and technical services to the Energy and Resource sectors with specific experience in the Minerals and Mining, Oil and Gas, Infrastructure and Power Generation Industries.

### Labour Hire

PARC supply multi-disciplined engineering and construction resources that can either work autonomously on a dedicated scope of work, or as integrated members of a project team.

Our team of experienced and reliable trades include electricians, mechanical fitters, pipe fitters, plumbers, gas fitters, boilermakers, coded welders, blasters, painters and trade assistants, to mention a few.

We also have some great engineering resources available to support your project. All of which can be mobilised quickly should you have an immediate need.
