

Quality Management & Inspections

Our Quality Management and Inspection resources integrate seamlessly within Clients teams to get the job done. PARC Engineering supply formally qualified resources to perform a range of inspections, including welding (CSWIP3.1 or CERT10), painting (NACE) and electrical/instrumentation inspections.

All resources are experienced in the requirements of developing and implementing project QA/QC systems including ITPs, ITR's and MDRs. We can support the quality control and quality assurance requirements of any project.

People

Quality Managers | Quality Inspectors | Quality Engineers | Quality Auditors | Quality Administration | MDR Auditors / Coordinators

Shutdown Support

PARC Engineering supply experienced multi-disciplinary shutdown support teams that specialise in integrating into our client's maintenance teams. Drawing on vast experience and thorough understanding of plant and infrastructure operation and design, we deliver efficient and cost-effective resources.
